MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW: The year under review continued to present a mixed picture in so far as the global economic trends were concerned. Beginning of 2018 had a slow start because of the effects of government policies. This reduced the demand for goods and services thereby leading to lower inflation. During 2018-19 Consumer Price Index was lowest in last six years.

India remains the fastest growing economy in the world. However, the CSO estimates India's growth rate @7% in FY 19, slower than 7.2% in FY 18, Due to growth moderation in government spending and capital formation. For the FY20, the IMF has projected growth @7.3% YoY on account of recovery of investment and consumption.

INDUSTRY OVERVIEW:Your company is anNBFC (Non Banking Finance Company) Company. This sector has evolved considerably in terms of its size, operations and entry into new areas of financial services and products. The regulatory framework has also undergone change. Your company is conscious of the same and the risk management practices followed by the Company over the years helped it to mitigate the normal industry risk factors, which inter-alia include economic/business cycle, fluctuation in the stock prices in the market, besides the interest rate volatility and credit risk. Improved sentiments in the secondary markets will also enhance the participation of investors across segments thereby helping the prospects of equity brokerage business.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE: Your Company is mainly engaged in investment activities, which is the only business segment. Segment-wise reporting is not applicable to your company.

OUTLOOK: NBFCs have steadily expanded their share of total credit in the country. They have developed innovative and customized financial products and solutions that are delivered efficiently to fulfill customer needs. With its inherent strength in terms of innovative products to meet consumer requirements, faster turnaround, nimble operations, reach and strong relationships, the sector is expected to grow, though more selectively than before.

RISK AND CONCERNS: The Company's operation involves inbuilt risk due to uncertain economic condition and unforeseen events beyond the Company's control. The company appreciates the varied forms of risk inherent in our industry and we continue to scrutinize our risk management system.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of

records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE - 1 : SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF ACCOUNTING

The financial statements are prepared under the historical cost convention on the basis of going concern, with revenue recognized and the expenses accounted on their accrual. in accordance with applicable Accounting Standards in India and relevant presentational requirement of the Companies Act, 2013 unless otherwise stated.

2. USE OF ESTIMATES

The preparation of the Financial Statements in conformity with Indian GAAP requires Management to make Judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods.

3. REVENUE RECOGNITION

Revenue is recognized only when it can be reliably measured and it is reasonable to expect ultimate collection. Sale of Goods (Net of Taxes) and Services Rendered (Net of Taxes) has been accounted on the accrual basis during the period. Dividend income is recognized when right to receive is established. Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

4. ACCOUNTING FOR TANGIBLE FIXED ASSETS

Fixed Assets are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing asset to its working condition for the intended use. Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefit from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day to day repairs and maintenance expenditure and cost of repairing parts, are charged to statement of Profit & Loss for the period during which expenses are incurred.

Gains or loss arising from de-recognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of fixed asset de-recognized.

5. DEPRECIATION

Depreciation on tangible Fixed Assets is provided on Written Down Value method over the useful life of asset prescribed in Part C of Schedule II of the Companies Act, 2013.

6. INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, are not capitalized and expensed off in the Statement of Profit and Loss in the year in which the expenditure is incurred.

Intangible assets are amortized on a straight line basis over the estimated useful economic life.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

7. **BORROWING COST**

Borrowing cost includes interest. Such costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

8. **INVESTMENT**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as Non Current Investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an overall basis. Long term investments are carried at cost. However, provision for diminution in values is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

9. **FOREIGN EXCHANGE TRANSACTIONS/TRANSLATION**

Foreign currency transactions and balances :

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign Currency monetary items are retranslated using the exchange rate prevailing at the reporting date.

Exchange Differences

Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalized and depreciated over the remaining useful life of the asset. The exchange differences on other foreign currency monetary items are accumulated in 'Foreign Currency Monetary Item Translation Difference Account' and amortized over the remaining life of the concerned monetary item. All other exchange differences are recognized as income or as expenses in the period in which they arise.

10. **TAXES ON INCOME**

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India.

The tax rates and tax Laws used to compute the amounts are those that are enacted, at the reporting date.

Deferred Taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets including the unrecognized deferred tax assets, if any, at each reporting date, are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date and are adjusted for its appropriateness.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as Current Tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.

11. Employee Benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit & Loss of the year in which the related service is rendered.

Defined contribution plan: Company's contributions due / payable during the year towards provident fund / ESIC is recognized in the Statement of profit and loss. The Company has no obligation other than the contribution payable to the provident fund / ESIC.

Defined Benefit Plan: The liability in respect of the defined benefits in the form of gratuity, leave encashment, post retirement medical scheme is provided for on cash basis.

12. EARNING PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all diluting potential equity shares.

13. Provisions, Contingent Liabilities & Contingent Assets

a. Provisions

A provision is recognized when the company has present obligations as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and reliable estimate can be made of amount of the obligation. Provisions are not discounted at their present value and are determined based on the best estimate required to settle the

obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

b. Contingent Liabilities

A Contingent liability is a possible obligation that arises from the past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent Assets are neither recognized nor disclosed in the financial statements.

14. The accounting policies not specifically referred to above are in consistence with generally accepted accounting principles.

15. The accounts of the Company have been prepared on a going concern basis.
